BENES TELLS WHAT ALLIES CAN ACCOMPLISH

EMISSARY FROM BOHEMIA COM-PARIS PAN-SLAVISM WITH PAN-GERMANISM IN AN INTER-VIEW

(Klamath County Special Service) MALIN, April 17.—"Americans have often been warned of the danger of pan-Slavism," said Professor Vojta Benes in an interview while here, where he addressed our people on "The Future Europe." Today the difference between the teachings of Tolstoy, the humanist, and Nietzsche, the "super-man," is clear. The German propagandists spread scares of the danger of pan-Slavism only to cast sand in their neighbor's eyes. It was a case of the thief who shouted with others, "catch him," in order to escape attention.

"For the true purpose of pan-Slavism is to see all Slavs free from foreign yoke and to promote a better understanding between them, hence Russia's task of liberating smaller nationalities and of delivering them from the intolerable German and Austro-Hungarian regime.

"The Germans warned the world of the danger of the Slavs to western civilization, only to be able to suppress them, and preached 'kultur' to the world, but at the same time deprived all other nationalities within their boundaries of all political and national rights like the worst barbarians.

"What, then, have the allies to do in order to make this pan-German threat to Europe an impossibility? The history of the past century is nothing but an evolution towards the realization of the principles of uniform national states. It witnessed the unity of the Italian nation and of the German states, and the liberation of the Balkan nations from the Turkish yoke. There is nothing more natural than to further this process of dismembering the second Turkey of Europe—Austria-Hungary—and liberate the other nationalities under their rule.

"But a second solution is possible, and that is, the creation of two Germanys in view of the old antagonisms between Protestant Berlin and Catholic Vienna. Bavaria and some other south German provinces would perhaps prefer to be under the Austrian than under the Prussian rule, and therefore a compensation of Austria at the expense of Germany might be welcome to the south Germans and would directly weaken and indirectly make a new attempt of the Germans at the conquest of central Europe an improbability, for the allies would have a reorganized Europe as well as such as would mean the dawn of permanent peace to Europe.

"The buffer states of Roumania, Greater Serbia or Yugoslavia, Bohemia and Poland on one side, a restored Belgium and strengthened France, Great Britain and Italy on the other side, would check all plans of pan-Germanism and guarantee a free development of all the European nations."

IF KIDNEYS AND BLADDER BOTHER

TAKE SALTS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation, and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is a splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia water drink, which quickly relieves bladder trouble.—Adv.

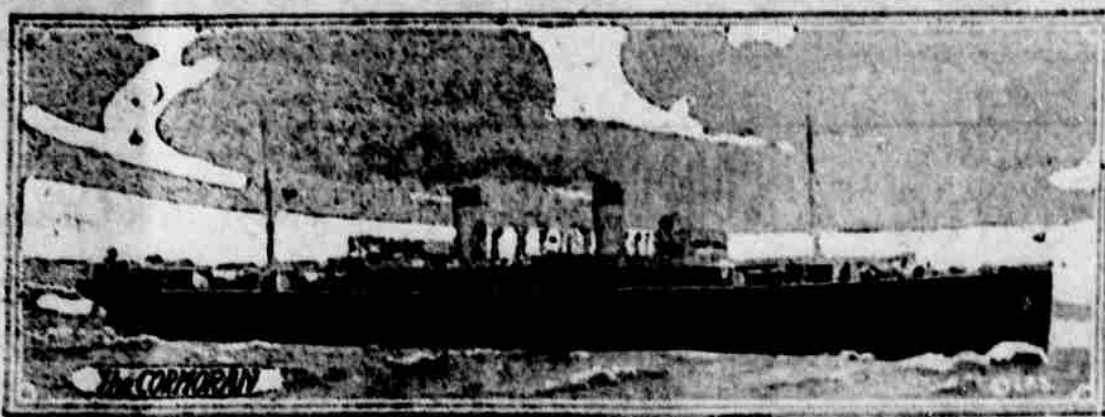

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smootheners and beautifier.

Just try it! Make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.—Adv.

Cormoran, German Cruiser, Blown Up

Rather than have this German cruiser, the Cormoran, interned in Apra harbor, Guam, seized by Americans, the Germans in charge of her blew her up when she was about to be seized. Two German warrant officers and five German enlisted men were killed. Twenty-five German officers, twelve warrant officers and 321 enlisted men were taken prisoners.

Moving Pictures

Fighting her way through a very hell—matching her cleverness and loyalty against the unscrupulous cunning of the political "ring," Diana Pearson, a young reporter on the New York Daily Argus, makes a sensational escape, "acops" the story and brings the band of conspirators and their leaders to earth.

Packed full of throb and thrill, jammed with courage, devotion and sacrifice, "The Daring of Diana" has a pulse-quickenng appeal.

Though she lived through every torture and fought clean and hard, her loyalty to the paper and its young chief made it a work of love.

"The Daring of Diana" will be produced at the Star theater tonight.

"PLANT NOW TO WIN THIS WAR"

Assistant Secretary of Agriculture Carl Vrooman wired the department as follows, when it was learned that a shortage of 50,000,000 bushels exists in the winter crop this year:

"Without going beyond their door-yards millions of American women and children can render service to the nation right now as real as that rendered by the soldier on the field of battle. A million gardens planted in the cities, suburbs and country would mean the release of millions of pounds of foods to our allies. Plant now. Get into the game and do your bit to win the war."

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready to use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it is done so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes dark, glossy, soft, and luxuriant, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

THUMB-NAIL SKETCHES

Men Who Run U. S. Navy

Admiral Ralph Earle.

WASHINGTON, April 17.—

The man who puts the teeth in the navy's dreadnaughts is Admiral Ralph Earle, chief of the Bureau of Ordnance.

His is the task of building and installing the giant guns for the fleet. He it is who must keep abreast of the ceaseless struggle of the nations for the "out-raging gun."

Striving for the fraction of an ounce power which may mean success or failure to a fleet, Admiral Earle is installing in the navy the biggest guns now known to naval warfare. Rumor has it that he is even now planning to reach into the future with bigger ones.

The ordnance bureau, under Earle, has taken rapid strides in naval development. The navy department briefly reports, "He has discharged his duties in a most satisfactory manner."

"Most satisfactory," indeed, they must be, that he is retained in charge of this vital bureau during this period of national preparation.

ASK TO CONSERVE BREEDING STOCK

GOV. WITHERCOMBE TAKES UP MATTER IN LETTER TO PRESIDENT, AS WELL AS CONSERVATION OF FOOD SUPPLIES

SALEM, Ore., April 17.—A suggestion that a nation-wide appeal for the conservation of breeding stock be made is contained in a letter which Governor Withercombe has sent to President Wilson.

"I am well aware of the vital importance not only of preserving our agricultural resources, but of increasing our productivity in every possible way," the letter reads, "as the safeguarding and best development of our sources of food supplies undoubtedly will be an important factor in satisfactorily solving the economic problem of the war. I have noted, therefore, with keen approval the action which is being taken toward the organized supervision of the nation's agricultural production and the conservation of its food supplies.

"In my opinion it would be ex-
